

LSU Case # 98-21

Unidentified White Male

Located on June 6, 1996 in Moss Point, Jackson County, Mississippi.

Estimated date of death is 2 - 6 weeks prior to discovery.

Skeletal Remains

Est. Age: 40-55 Yrs. Old

Height: 5'3"-5'6"

Hair: Possibly Brown

Had healed fractures on the right ribs. Healed antemortem fractures were noted on right ribs 7 & 8 near midline of body; healed fx on the anterior one-third of right rib #9; healed fx to the left horn of the hyoid; partially healed fx near the sternal end of right rib #6.

Dentals: Available in FBI NMPDD

Most of his teeth were missing, but he had 2 fillings. Amalgam fillings noted on the occlusal surfaces of teeth #5 & #31; tooth #31 also has a small amalgam filling on the buccal surface. Unfilled caries noted on teeth #13 and #32. Teeth #4 & #20 showed some alveolar resorption with both teeth not present unknown if antemortem or postmortem loss

Clothing: Black denim pants; long sleeved, cotton, grey t-shirt with the number "12" printed on the front and back, as well as on both sleeves. A brown leather belt with "We shall rise again" on it with 2 confederate flags as well as "save our flag boys" printed twice on both sides. "ED" etched on the back of beltbuckle. Reebok pump tennis-shoes.

The skeletal remains were found in a wooded area behind the Truckers Welcome Center (JJ's Truck Stop) on Jamestown Road in Moss Point, Mississippi.

Sources: UDRS and Doenetwork
