

Tony Spiers-MISSING, 1994 from Ruth Street, St. Martin Community

Do you know what happened to Tony?

Tony worked daily harvesting oysters with his father. When he did not show up for work, his family went to check his residence and found his keys, wallet, medications and Skoal can. The car door was also open and there was a rented VCR tape on the roof of the car with his wallet and checkbook on the passenger seat. The date was 8/25/94.

The night before his disappearance, Tony had dinner at his parent's home in St. Martin and stated to them he had seen something he should not have seen.

Do you have ANY information on Tony's disappearance? If you do have information but are scared to come forward and talk to the police, contact Crime Stoppers and you will stay totally anonymous. We do not record calls nor have caller id. You do not need to testify in court.
